The spirit of the frontier will again be at the forefront of the new Americana lifestyle. With 60 years of experience in all things ranching, farming, building, creating, entrepreneurship, and living on the edge of adventure, we are now offering workshops and retreats located on our two beautiful ranches here in the middle of the Cowboy Capital of the World, Stephenville, Texas. Join us for a real, working experience and learn the basics of creating your own homestead. Our amazing field of expertise is in so many real-life situations that,

on any given day, you could participate in a variety of activities. Learn to rope, and work with our herd of over 150 goats and sheep, mini cows, deer, llamas, wallabies and more. Our expert, Alexandra, who runs our regenerative agriculture program with our herd of over 60 cows, will inspire you. We will also be planting an orchard of organic fruit and nut trees—learn what it takes.

Build a fence and even construct a chicken coop. You can also try your hand at our farm store and learn how to merchandise and make sales utilizing Texas-created merchandise and our own grass-fed meat. You can prepare farm-to-table recipes with our founder, Dianne Linderman, learn how to make cheese, butter, and sourdough bread, and discover the lost art of canning. We also teach beekeeping, arts, crafts, even fly fishing, and so much more. We inspire entrepreneurship, and will help you learn how to generate multiple streams of income with your ideas.
